Comprehensive
long-term care

Progressive
short-term
rehabilitation

Caring for adults in Duluth, St. Louis County, and the surrounding Arrowhead Region.

Long-term skilled nursing

Comprehensive long-term care at our center is for persons who require 24-hour professional nursing and assistance. Our team of health care professionals is made up of multiple disciplines working together to provide you with the high-quality clinical and personal care you expect. The team develops your personalized plan of care that encompasses both physical and emotional care.

Your home, designed for you.

Welcoming amenities make life here so much more enjoyable.

- Beautiful private or semi-private rooms with bathroom
- Delicious and nutritious meals served in our spacious dining room
- Housekeeping, bed making, and personal laundry service
- Library lounges with a large selection of books and a computer station to keep you connected
- Barber and beauty salon to look your best
- Secured entrances and in-room call system to assure peace of mind
- Community spaces to host events and activities
- Comfortable lounges and outdoor patio to gather with family and friends

Get better. Get home.

Progressive rehabilitation

Rehabilitation care is the short-term “bridge” needed to return home after a hospitalization, illness, or injury has

occurred. During this type of stay, Chris Jensen Health + Rehabilitation Center’s staff provides skilled nursing services, therapies, and any necessary ancillary services ordered by your doctor. Together, you, your family, and the care team begin developing your personalized rehabilitation plan to help you transition quickly back into your everyday life.

Team members in community partnership.

Through close partnerships established with area hospitals and health care providers, we are able to deliver high quality health care services, participate in collaborative learning efforts, and continually improve our health care delivery model.
